

Ad-Hoc HAV Data Access Coalition

October 3, 2017

The Honorable John Thune
Chairman
Committee on Commerce, Science
and Transportation
United States Senate
Washington, D.C. 20510

The Honorable Bill Nelson
Ranking Minority Member
Committee on Commerce, Science
and Transportation
United States Senate
Washington, D.C. 20510

Re: Support for HAV Data Access Amendment Filed by Senator James Inhofe

Dear Chairman Thune and Ranking Member Nelson:

The "Ad-Hoc Data Access Coalition," comprised of the diverse group of stakeholders listed at the end of this letter, respectfully asks for your support for the HAV Data Access amendment filed by Senator James Inhofe when the Senate Commerce Committee convenes to mark-up S. 1885, the "AV START Act." The Inhofe Data Access amendment is a compromise reached through extensive negotiations between the members of the Coalition and many other stakeholders with an interest in HAV data access.

The Inhofe Data Access amendment represents a moderate approach to the development of a balanced and comprehensive approach to the important public policy issues related to access to, and control of, data generated by and stored by HAVs. It recognizes that there are some HAV data access issues that are not "ripe" for legislation at the current time and must be explored through a federal advisory committee process.

The members of the Coalition look forward to working with you and your colleagues as the AV Start Act moves to the Senate floor and thank you for considering this request for your support of the Inhofe Data Access amendment to S. 1885.

Sincerely yours,
